RAJGURU MATHIYALAGAN

Data Analyst | Data Scientist | Machine Learning | Python | SQL | Azure ML

Mumbai, India | +91 8976031550 | rajguru21.ds@gmail.com

linkedin.com/in/rajguru-mathiyalagan-63b921244 | github.com/RajguruDs | portfolio-eight-kappa-95.vercel.app

PROFESSIONAL SUMMARY

IT graduate with hands-on experience in data analytics, machine learning, and ETL pipelines through an AI/ML internship and end-to-end projects. Proficient in Python, SQL, exploratory data analysis, statistical analysis, and predictive modeling, including processing 1.6M+ records in Azure Machine Learning Studio. Skilled in data cleaning, feature engineering, model evaluation, and data visualization to turn complex datasets into actionable insights and data-driven solutions.

TECHNICAL SKILLS

Languages & Databases	Python, SQL, PostgreSQL
Data Analysis	Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, Data Validation, Statistical Analysis, A/B Testing
Machine Learning	Scikit-learn, XGBoost, Random Forest, Gradient Boosting, Regression, Classification, K-Means Clustering, Feature Engineering, SMOTE, Cross-Validation, Model Evaluation
Data Engineering	ETL Pipelines, Data Processing, PySpark
Visualization & BI	Tableau, Power BI, Matplotlib, Seaborn, Dashboard Development, Reporting
Cloud & ML Platforms	Microsoft Azure, Azure Machine Learning Studio, Azure AutoML, Azure ML Designer
Tools & Deployment	Jupyter, Git/GitHub, Google Colab, VS Code, Microsoft Excel, Flask, REST API, React.js

PROFESSIONAL EXPERIENCE

Junior AI/ML Data Analyst Intern September 2026 – October 2026

Roopsee | *Thane, Maharashtra*

- Supported data collection, cleaning, and preparation to provide high-quality datasets for analytics and AI/ML initiatives.
- Contributed to basic model development and database management for AI/ML projects.
- Assisted with frontend and backend web development, building dashboards to support data-driven decision-making.
- Participated in testing, debugging, and deployment of AI/ML and web-based solutions.

PROJECTS

PropVision – UAV Performance Prediction Platform 2025 – 2026

GitHub: github.com/RajguruDs/UAV-Propeller-ml-project | Live Demo: uav-propeller-ml-project.vercel.app

- Built an end-to-end data pipeline and ML model predicting UAV propeller thrust, power, and efficiency from 1.6M records, achieving 90% accuracy with XGBoost and Gradient Boosting in Azure Machine Learning Studio.
- Implemented Azure AutoML regression workflows and Azure ML Designer pipelines for cloud-based training, hyperparameter tuning, and cross-validation.
- Applied physics-informed feature engineering (Blade Area, Solidity) via numerical integration to improve generalization.
- Deployed a full-stack solution (React.js, Flask REST API, PostgreSQL) with Tableau BI dashboards.

Employee Turnover Analysis – HR Attrition Prediction 2025 – 2026

GitHub: github.com/RajguruDs/Employee-Turnover-Analysis-using-Machine-Learning

- Built a statistical modeling and classification pipeline using Random Forest and Logistic Regression with cross-validation, achieving 90% accuracy and 0.90 ROC-AUC.
- Designed an ETL workflow with data wrangling and SMOTE oversampling to address class imbalance.
- Conducted EDA, K-Means clustering, and A/B testing of retention strategies to identify key attrition drivers; presented insights through business intelligence dashboards.

EDUCATION

B.Sc. Information Technology | D.G. Ruparel College, University of Mumbai 2023 – 2026

CGPA: 8.60/10 | Relevant Coursework: Statistics, Data Structures, DBMS, Linear Algebra, Operating Systems

CERTIFICATIONS

Introduction to Programming Using Python | Simplilearn 2024

Data Science with Python | Simplilearn 2025

Data Analytics Job Simulation | Deloitte (Forage) 2026
